

## SLIK5 Rabbit pAb

CatalogNo: YN2111

### Key Features

**Host Species**

- Rabbit

**Reactivity**

- Human, Mouse

**Applications**

- WB, ELISA

**MW**

- 105kD (Observed)

**Isotype**

- IgG

### Recommended Dilution Ratios

**WB 1:500-2000****ELISA 1:5000-20000**

### Storage

**Storage\***

-15°C to -25°C/1 year (Do not lower than -25°C)

**Formulation**

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

### Basic Information

**Clonality**

Polyclonal

### Immunogen Information

**Immunogen**

Synthesized peptide derived from part region of human protein

**Specificity**

SLIK5 Polyclonal Antibody detects endogenous levels of protein.

### Target Information

**Gene name**

SLITRK5 KIAA0918 LRRC11

|                       |                                                                                                                                                                                                                                                                           |                         |                          |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|--------------------------|
| Protein Name          | SLIT and NTRK-like protein 5 (Leucine-rich repeat-containing protein 11)                                                                                                                                                                                                  |                         |                          |
|                       | Organism                                                                                                                                                                                                                                                                  | Gene ID                 | UniProt ID               |
|                       | Human                                                                                                                                                                                                                                                                     | <a href="#">26050</a> ; | <a href="#">O94991</a> ; |
|                       | Mouse                                                                                                                                                                                                                                                                     |                         | <a href="#">Q810B7</a> ; |
| Cellular Localization | Membrane ; Single-pass type I membrane protein .                                                                                                                                                                                                                          |                         |                          |
| Tissue specificity    | Expressed predominantly in the cerebral cortex of the brain but also at low levels in the spinal cord and medulla.                                                                                                                                                        |                         |                          |
| Function              | Function:Suppresses neurite outgrowth.,similarity:Belongs to the SLITRK family.,similarity:Contains 16 LRR (leucine-rich) repeats.,tissue specificity:Expressed predominantly in the cerebral cortex of the brain but also at low levels in the spinal cord and medulla., |                         |                          |
