

Dab1 (Phospho Tyr232) Rabbit pAb

CatalogNo: YP0522

Key Features

Host Species

- Rabbit

Reactivity

- Human, Mouse, Rat

Applications

- WB, IF, ELISA

MW

- 80kD (Observed)

Isotype

- IgG

Storage

Storage* -15°C to -25°C/1 year (Do not lower than -25°C)

Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

Recommended Dilution Ratios

WB 1:500-1:2000

IF 1:200-1:1000

ELISA 1:20000

Not yet tested in other applications.

Basic Information

Clonality Polyclonal

Immunogen Information

Immunogen The antiserum was produced against synthesized peptide derived from human Dab1 around the phosphorylation site of Tyr232. AA range:199-248

Specificity

Phospho-Dab1 (Y232) Polyclonal Antibody detects endogenous levels of Dab1 protein only when phosphorylated at Y232. The name of modified sites may be influenced by many factors, such as species (the modified site was not originally found in human samples) and the change of protein sequence (the previous protein sequence is incomplete, and the protein sequence may be prolonged with the development of protein sequencing technology). When naming, we will use the "numbers" in historical reference to keep the sites consistent with the reports. The antibody binds to the following modification sequence (lowercase letters are modification sites):GVyDV

Target Information

Gene name DAB1

Protein Name Disabled homolog 1

Organism	Gene ID	UniProt ID
Human	8674 ;	O75553 ;
Mouse	13131 ;	P97318 ;
Rat	266729 ;	Q8CJH2 ;

Cellular Localization nucleolus ,microtubule organizing center ,cytosol ,brush border ,postsynaptic density ,membrane ,neuron projection ,neuronal cell body ,intracellular membrane-bounded organelle ,apical part of cell ,perinuclear region of cytoplasm ,

Tissue specificity Mainly expressed in brain.

Function Domain:The PID domain specifically binds to the Asn-Pro-Xaa-Tyr (P) motif found in many tyrosine-phosphorylated proteins. ,Function:Adapter molecule functioning in neural development. May regulate SIAH1 activity. ,PTM:Phosphorylated on Tyr-198 and Tyr-220 upon reelin induction in embryonic neurons (By similarity) . Also phosphorylated on Ser-524 independently of reelin signaling. ,similarity:Contains 1 PID domain. ,subunit:Associates with the SH2 domains of SRC , FYN and ABL. Interacts with DAB2IP and SIAH1 (By similarity) . Interacts with LRP1. ,

Validation Data

Enzyme-Linked Immunosorbent Assay (Phospho-ELISA) for Immunogen Phosphopeptide (Phospho-left) and Non-Phosphopeptide (Phospho-right), using Dab1 (Phospho-Tyr232) Antibody

Western blot analysis of lysates from LOVO cells, using Dab1 (Phospho-Tyr232) Antibody. The lane on the right is blocked with the phospho peptide.
