

Ub Rabbit pAb

CatalogNo: YT5432

Key Features

Host Species

Rabbit

Reactivity

· Human, Mouse, Rat

ApplicationsWB,ELISA

MW

52kD (Observed)

IsotypeIgG

Recommended Dilution Ratios

WB 1:500-1:2000 ELISA 1:20000

Not yet tested in other applications.

Storage

Storage* -15°C to -25°C/1 year(Do not lower than -25°C)

Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

Basic Information

Clonality Polyclonal

Immunogen Information

Immunogen Synthesized peptide derived from human Ub around the non-acetylation site of K63.

Specificity Ub Polyclonal Antibody detects endogenous levels of Ub protein only when acetylation at

K63.

| Target Information

Gene name UBA52/RPS27A/UBB/UBC

Protein Name Ubiquitin

Organism Gene ID UniProt ID

Human 7311; POCG47; POCG48; P62979; P62987;

Cellular Localization [Ubiquitin]: Cytoplasm . Nucleus .; [60S ribosomal protein L40]: Cytoplasm .

Tissue specificity Brain, Epithelium, Fetal brain cortex, Liver, L

Function Function: Protein modifier which can be covalently attached to target lysines either as a

monomer or as a lysine-linked polymer. Attachment to proteins as a Lys-48-linked polymer usually leads to their degradation by proteasome. Attachment to proteins as a monomer or as an alternatively linked polymer does not lead to proteasomal degradation and may be required for numerous functions, including maintenance of chromatin structure, regulation

of gene expression, stress response, ribosome biogenesis and DNA

repair., miscellaneous: This ribosomal protein is synthesized as a C-terminal extension protein (CEP) of ubiquitin., miscellaneous: Ubiquitin is synthesized as a polyubiquitin precursor with exact head to tail repeats, the number of repeats differ between species and strains. In some species there is a final amino-acid after the last repeat, here in human a Val. Some ubiquitin genes contain a single copy of ubiquitin fused to a ribosomal protein (either L40 or S27a)., PTM: Several types of polymeric chains can be formed, depending on the lysine used for the assembly., similarity: Belongs to the ribosomal protein L40e

family., similarity: Belongs to the ribosomal protein S27Ae family., similarity: Belongs to the

ubiquitin family.,
