

TASK-1 Rabbit pAb

CatalogNo: YT5689

| Key Features

Host Species

- Rabbit

Reactivity

- Human, Mouse, Rat

Applications

- WB, ELISA

MW

- 53kD (Observed)

Isotype

- IgG

| Recommended Dilution Ratios

WB 1:500-1:2000

ELISA 1:10000

Not yet tested in other applications.

| Storage

Storage* -15°C to -25°C/1 year (Do not lower than -25°C)

Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

| Basic Information

Clonality Polyclonal

| Immunogen Information

Immunogen The antiserum was produced against synthesized peptide derived from human TASK-1. AA range: 47-96

Specificity TASK-1 Polyclonal Antibody detects endogenous levels of TASK-1 protein.

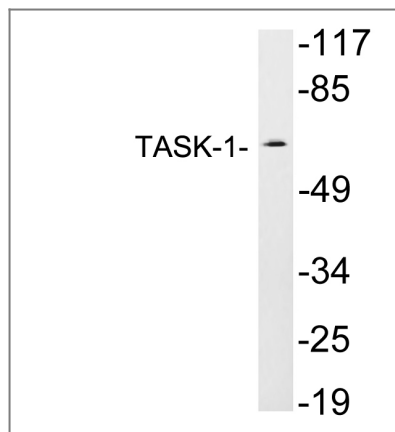

| Target Information

Gene name	KCNK3		
Protein Name	Potassium channel subfamily K member 3		
	Organism	Gene ID	UniProt ID
	Human	3777 ;	O14649 ;
	Mouse	16527 ;	O35111 ;
	Rat	29553 ;	O54912 ;
Cellular Localization	Cell membrane ; Multi-pass membrane protein .		
Tissue specificity	Widespread expression in adult. Strongest expression in pancreas and placenta. Lower expression in brain, lung, prostate, heart, kidney, uterus, small intestine and colon.		
Function	Function:pH-dependent, voltage-insensitive, background potassium channel protein. Rectification direction results from potassium ion concentration on either side of the membrane. Acts as an outward rectifier when external potassium concentration is low. When external potassium concentration is high, current is inward.,miscellaneous:Inhibited by external acidification. Activated by halothane and isoflurane.,similarity:Belongs to the two pore domain potassium channel (TC 1.A.1.8) family.,tissue specificity:Widespread expression in adult. Strongest expression in pancreas and placenta. Lower expression in brain, lung, prostate, heart, kidney, uterus, small intestine and colon.,		

| Validation Data

Western blot analysis of mouse-brain using TASK-1 antibody. Antibody was diluted at 1:500. Secondary antibody(catalog#:RS0002) was diluted at 1:20000

Western blot analysis of lysates from JAR cells, using TASK-1 antibody.
