

## SRS12 Rabbit pAb

CatalogNo: YT7192

### | Key Features

#### Host Species

- Rabbit

#### Reactivity

- Human, Mouse

#### Applications

- WB

#### MW

- 29kD (Calculated)

#### Isotype

- IgG

### | Recommended Dilution Ratios

WB 1:500-2000

### | Storage

**Storage\*** -15°C to -25°C/1 year (Do not lower than -25°C)

**Formulation** Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

### | Basic Information

**Clonality** Polyclonal

### | Immunogen Information

**Immunogen** Synthesized peptide derived from human SRS12 AA range: 105-155

**Specificity** This antibody detects endogenous levels of SRS12 at Human/Mouse

### | Target Information

**Gene name** SRSF12 SFRS13B SFRS19 SRRP35

|                              |                                                                                                                                                                                                                                                        |                         |                         |

|                              | Human                                                                                                                                                                                                                                                  | <a href="#">135295;</a> | <a href="#">Q8WXF0;</a> |
|                              | Mouse                                                                                                                                                                                                                                                  | <a href="#">272009;</a> | <a href="#">Q8C8K3;</a> |
| <b>Cellular Localization</b> | Nucleus .                                                                                                                                                                                                                                              |                         |                         |
| <b>Tissue specificity</b>    | Expressed in testis.                                                                                                                                                                                                                                   |                         |                         |
| <b>Function</b>              | Function:Splicing factor that seems to antagonize SR proteins in pre-mRNA splicing regulation.,similarity:Belongs to the splicing factor SR family.,similarity:Contains 1 RRM (RNA recognition motif) domain.,tissue specificity:Expressed in testis., |                         |                         |

| Validation Data

Western blot analysis of lysates from A431 cells, primary antibody was diluted at 1:1000, 4°over night
