

## BABA1 Rabbit pAb

CatalogNo: YN5139

### Key Features

#### Host Species

- Rabbit

#### Reactivity

- Human, Mouse, Rat

#### Applications

- WB

#### MW

- 36kD (Calculated)

#### Isotype

- IgG

### Recommended Dilution Ratios

WB 1:1000-2000

### Storage

**Storage\*** -15°C to -25°C/1 year (Do not lower than -25°C)

**Formulation** Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

### Basic Information

**Clonality** Polyclonal

### Immunogen Information

**Immunogen** Synthesized peptide derived from human BABA1 AA range: 84-134

**Specificity** This antibody detects endogenous levels of human BABA1

### Target Information

**Gene name** BABAM1 C19orf62 MERIT40 NBA1 HSPC142

| Protein Name          | BRISC and BRCA1-A complex member 1 (Mediator of RAP80 interactions and targeting subunit of 40 kDa) (New component of the BRCA1-A complex) |                         |                          |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|--------------------------|
|                       | Organism                                                                                                                                   | Gene ID                 | UniProt ID               |
|                       | Human                                                                                                                                      | <a href="#">29086</a> ; | <a href="#">Q9NWW8</a> ; |
|                       | Mouse                                                                                                                                      | <a href="#">68251</a> ; | <a href="#">Q3UI43</a> ; |
| Cellular Localization | Rat                                                                                                                                        | <a href="#">68251</a> ; | <a href="#">Q5XIJ6</a> ; |
|                       | Cytoplasm . Nucleus . Localizes at sites of DNA damage at double-strand breaks (DSBs). .                                                   |                         |                          |
