

## RIR2 Rabbit pAb

CatalogNo: YN5284

### | Key Features

#### Host Species

- Rabbit

#### Reactivity

- Human, Mouse, Rat

#### Applications

- WB

#### MW

- 43kD (Calculated)

#### Isotype

- IgG

### | Recommended Dilution Ratios

WB 1:1000-2000

### | Storage

**Storage\*** -15°C to -25°C/1 year(Do not lower than -25°C)

**Formulation** Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

### | Basic Information

**Clonality** Polyclonal

### | Immunogen Information

**Immunogen** Synthesized peptide derived from human RIR2 AA range: 260-310

**Specificity** This antibody detects endogenous levels of human RIR2

### | Target Information

**Gene name** RRM2 RR2

|                              |                                                                                                                                 |                        |                         |
|------------------------------|---------------------------------------------------------------------------------------------------------------------------------|------------------------|-------------------------|
| <b>Protein Name</b>          | Ribonucleoside-diphosphate reductase subunit M2 (Ribonucleotide reductase small chain) (Ribonucleotide reductase small subunit) |                        |                         |
|                              | <b>Organism</b>                                                                                                                 | <b>Gene ID</b>         | <b>UniProt ID</b>       |
|                              | Human                                                                                                                           | <a href="#">6241;</a>  | <a href="#">P31350;</a> |
|                              | Mouse                                                                                                                           | <a href="#">20135;</a> | <a href="#">P11157;</a> |
|                              | Rat                                                                                                                             | <a href="#">20135;</a> | <a href="#">Q4KLN6;</a> |
| <b>Cellular Localization</b> | Cytoplasm . Nucleus . Localized to the cytoplasm in S phase cells. May localize to the nucleus in G2 phase cells. .             |                        |                         |
